PROFILE SUMMARY

Detail-oriented Information Technology Graduate with experience in Web and System development using HTML, CSS, JS, PHP, MySQL, and GitHub. Strong in building functional, user-focused applications with clean UI/UX design and practical problem-solving skills, supported by foundational IT- related knowledge.

EXPERIENCES

Internship

2025 - 2026

Front-end Developer and GIS Intern

- Designed and prototyped the UI/UX for an eco-tourism tracking system for Mt. Romelo, translating complex land carrying capacity variables into clear dashboard analytics. Additionally, utilized QGIS to map the actual terrain, trail networks, and river systems to produce professional, publication-ready layouts.

Capstone

2025 - 2026

Associate Full Stack Developer - ClassXic: Dyslexia-Friendly Learning Management System

- Developed and deployed a web-based Learning Management System designed for students with dyslexia, imbued with accessibility features such as Text to Speech, Phonetics Support, and Customizable Dyslexic friendly UI interface with the integration of Web Speech API and Dictionaryapi.dev

Freelance

2021 - 2022

Memory Keepsake Designer

- Designed custom photo book layouts by organizing images, text, and visual elements into cohesive, visually appealing memory books.

EDUCATION

Laguna State Polytechnic University

2022 - 2026

Bachelor of Science in Information Technology Major in Web and Mobile Application Development

MICRO CREDENTIALS

Certiport - IT Specialist

- HTML AND CSS
- mastered multiple industry standards that accurately validate my skills and demonstrate proficiencies in foundational IT skills.

Fundamentals of Pitching and Startup Projects

- Department of Information and Communication Technologies

SKILLS

- UI/UX Design
- Database Management
- Web and System Development
